Attorney Docket (Z) 98005 P US

Commissioner for Patents  
Washington, DC 20231

Dear Examiner Fuller:

I am faxing a proposed amendment to claims 15 and 16.

On page 3 of the final action you state you observe that Kubota disclosed a pellicle "made with" magnesium fluoride. Kubota's pellicle consists of organic material, with only a thin layer of magnesium fluoride added. Kubota does not disclose a pellicle essentially consisting of fluoride crystal. This recitation clearly distinguishes from Kubota's teaching.

Thank you in advance for reviewing and commenting the following proposed change to claims 15 and 16.

Schuster

1

Proposal in the Claims:

15 (Amended three times): A pellicle essentially consisting of fluoride crystal.

Claim 16: The pellicle according to claim 15, comprising a fluoride selected from the group consisting of  $\text{CaF}_2$ ,  $\text{BaF}_2$ , or  $\text{MgF}_2$ .

Respectfully submitted,

M. Robert Kestenbaum  
Reg. No. 20,430
